We thank you for your attendance and hope you enjoy the play. It is our hope to produce five or six plays each year in order that we may continue to bring you the fun of live, intimate theater.

A great revival of interest in the spoken drama has occurred throughout the country in recent years. This has been due almost entirely to the efforts of such community theater enterprises as ours.

The Conejo Players invite active participation in the group's activities by all members of the community. Won't you join our efforts by filling in the blank below and leaving it with one of the usherettes.
